

**ALU-T55 INSULATED
ALUMINUM SHUTTER**

ALU-T55 INSULATED ALUMINUM SHUTTER

ALU-T55

PRODUCT DESCRIPTION

The ALU-T55 is often used on residential and commercial buildings where both security & insulation are the primary concerns.

Our ALU-T55 comes insulated which makes them the perfect product for customers who want to save on energy bills as they keep the heat in, cold out or vice versa depending on the time of the year they're being operated.

Available in 18 standard colours, and can also come in 4 wood laminate finishes for an extra charge. See Colour Options in the Downloads tab below.

For larger apertures, or openings with a requirement for a higher level of insulation, please see our [ALU-T77](#).

IDEAL USES

- Shop fronts
- Warehouses
- Garage doors
- Over large domestic windows

KEY FEATURES

- Offers medium to high security.
- More lightweight than a steel shutter meaning less strain will be caused on the motor when operating.
- Available in 18 standard colours, and can also come in 4 wood laminate finishes for an additional charge. Please see Colour Options in Downloads tab below.
