

10
TOP TIPS

TO KEEP YOUR
HOME SAFE WHILST
YOU'RE ON HOLIDAY

RESIDENTIAL ROLLER SHUTTERS

Another handy guide from
the UK's **number one**
roller shutter supplier.

OUR PROMISE. YOUR PROTECTION.

1

Cancel deliveries

Cancelling regular deliveries such as milk when you're on holiday is a good idea.

Build up of post can often attract attention and show that no-one is home, meaning you're more likely to be burgled. The Royal Mail KeepSafe service can hold your mail for you for up to 2 months, a good idea especially if you're planning on a long break away!

2

Garden maintenance

Think about mowing your garden, watering plants and removing leaves.

This will make the front of your house look well kept and will give the impression you're home.

3

Lighting

Install lighting on a timer when you're away.

This ensures that lights are on when the evening closes in and it looks like people are in - deterring thieves.

4

Home insurance

Check the details of your home insurance.

It may be invalid if you're burgled and the door or windows were unlocked. Once you know the details, have a sweep of the house before you leave to ensure you've taken all of the right precautions and locked up. Your insurance premium may decrease if you install roller shutters as they have fantastic security benefits.

Our variety of Roller Shutters can suit any need, just pop us an email and we can help you out
sales@ukrollershutters.co.uk

5

Garages

Garages aren't usually equipped with the same level of security as the rest of the house.

Roller shutter installation is a great idea for keeping your outhouses safe from burglary as they provide a strong line of defence against thieves. Often valuable garden machinery and tools are kept in these - therefore being a great target for theft. You can prevent this from happening with installation of roller shutters.

6

Social media

Try to avoid posting on social media accounts whilst you're away.

Thieves can target people's homes who broadcast the fact they're on holiday or post photos publicly as it shows that no-one is home. We'd advise for you to wait till you get home to upload anything holiday related.

Why not follow and tweet us for more information on how we can help keep you safe

7

Answer machine

It's a good idea to not leave answer-machine messages on your landline which indicate you're away on holiday - you could look at transferring calls to your mobile.

8

Make things secure

Make sure you put all ladders and tools away in the garage and secure it with roller shutters.

This will ensure they're locked away safe and thieves can't use them to break into your house.

9

Home security

Have a think about installing motion sensor security lighting, burglar alarms, and roller shutters.

These can all deter thieves as soon as they approach your property, the lights may trigger. Roller shutters over windows can also hinder robbers breaking in as seeing these in place means it will require a lot more effort to break in. When burglar alarms are fitted they often have a box on the outside of your house which can also deter thieves.

10

Home CCTV

Install a wireless CCTV system.

You'll be able to watch live footage through a mobile app - this will help you to relax on holiday knowing you'll be able to check on the house while you're relaxing on the beach.

CCTV alongside Roller Shutters act as great preventative measures and have been proven to be effective at deterring thieves away.

Let your neighbours know you're going away so they can keep an eye out on any suspicious activity while you're away. You could even ask them to park their car on your drive to make the house look occupied.
