

Visi Elite R (SR2/B3)

The Visi Elite R car park shutter is the ultimate solution for facilities that demand both high security and maximum ventilation. With an exceptional 72% free area, the Visi Elite R provides unparalleled airflow, making it ideal for enclosed car parks where smoke and fume extraction is a critical safety requirement. This high level of visibility also enhances security by allowing for natural surveillance, deterring potential threats while creating a brighter, more welcoming environment.

Exceptional Airflow: With 72% free area, the Visi Elite R ensures outstanding ventilation, critical for smoke and fume control in car parks.

SR2 Security Rating: Independently tested and certified to LPS1175 Issue 8 SR2/B3, providing a formidable barrier against determined attackers.

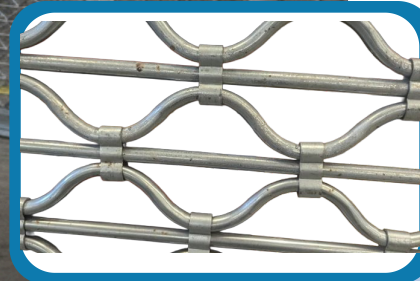

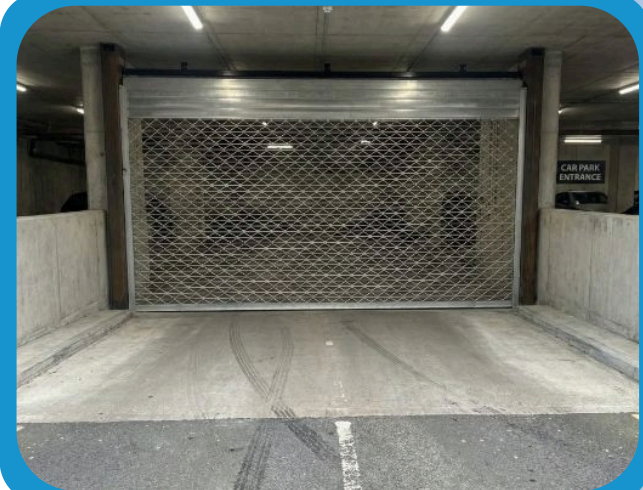

Maximum Visibility: The open grille design offers unparalleled transparency, enhancing natural surveillance and creating a safer, more open feel.

Self-Locking Technology: An innovative self-locking mechanism secures the shutter automatically, eliminating the need for vulnerable external locks.

Durable Galvanized Finish: The standard galvanized finish provides excellent corrosion resistance and a clean, professional appearance.

Made in the UK: Proudly manufactured in the UK, ensuring the highest standards of quality, craftsmanship, and materials.

Flexible Operation: Available in both manual and automatic versions, with heavy-duty motors for high-cycle applications.
